BLAIRMORE VACATION SCHOOL AGAIN A SUCCESS

The Blairmore Vacation School, held each year in the United church and under the leadership of Rev. J. W. Smith, B.D., with its many volunteer teachers and helpers, has proved an unqualified success again this year as in former years.

The average daily attendance was seventy-six, and although the age limit was reduced from 16 years to 13, every department was filled to capacity.

An appreciative audience attended the closing exercises. Each department contributed something to the programme from their daily work. The chair was ably taken by Mr. S. G. Bannan.

A Scotchman recently played the bagpipes for forty-eight hours without stopping. He probably had them on two days free trial.

L.O.O.F. ENCAMPMENT OFFICERS INSTALLED

An occasion of much interest was the visit here on Friday last of the executive heads of the Grand Encampment of Alberta, L.O.O.F., when the officers of Crow's Nest Encampment were duly elected and installed.

The visitors included: W. Michie, grand patriarch; D. L. Doane, grand senior warden; W. J. Huntingford, grand high priest; Dave Wilson, grand scribe; H. Nixon, grand junior warden, and W. Taylor, grand marshal. Also present were a number of visiting patriarchs from Nanton, Medicine Hat, Lethbridge, Bellevue and Michel-Natal, as well as R. B. Morden, past grand patriarch, Lethbridge.

The officers installed were in part as follows: W. J. Bartlett, chief patriarch; William Patterson, senior warden; R. C. Green, high priest; Ed. Hoyle, scribe; J. Montalbetti, treasurer. The character that made him warden.

OLD TIMER PASSES

AT MACLEOD

The death occurred suddenly at Macleod on Saturday morning last of Mrs. T. B. Martin, widow of a former Macleod and Frank barriester and well-known resident of this part of Alberta.

Mrs. Martin is survived by her two children, Barney, of Calgary, a son; Mrs. Van Linden, of Turner Valley, daughter; her mother, and a sister, Mrs. J. W. McNicol, of Lethbridge.

The remains were laid to rest at Macleod on Tuesday.

CHURCH LEADER SEES

LIFELESS FIELDS

TORONTO, July 21.—Only six fields of grain were seen in a motor trip of 160 miles through southern Saskatchewan made by Rev. Dr. Edmund H. Oliver, Saskatoon, Saskatchewan, moderator of the United Church of Canada. Fields filled with sand and dried-up river beds marked the country west of Regina, one of the best grain growing districts in the province.

"In the portion of Saskatchewan that we have covered, there will not be a one per cent crop," predicted Dr. Oliver, who is making a survey of the drought-stricken area along with officials of the United church, and reporting on conditions to church offices here.

The journey, marking the second day's survey, took the party west from Regina to Mottlatch, then south-west to Carleton and back to the provincial capital.

"In this distance of 160 miles we saw two or three small patches of potatoes, one near Bille Plains, the other west of Moose Jaw; one little crop of oats about 50 miles west of Regina; two fields of wheat about 20 inches high, west of Regina, and two or three other wheat fields in the hills, southeast of Mottlatch."

Last year, one person in ten in Moose Jaw drew relief, the moderator was told by Rev. R. D. Tannahill. This year would be much more critical, he said. There was practically no crop in Moose Jaw presbytery.

WINNIPEG MAY BUY PASS COAL

CALGARY, July 21.—Investigation of the quality of various Alberta coals with a view to determining the fuel best suited to the requirements of the Winnipeg City hydro electric is being undertaken by G. W. Oliver, fueling engineer for the city of Winnipeg, who was in Calgary Tuesday.

Winnipeg will be in the market next month to award the contract for about 40,000 tons of coal, to supply its central heating system for the next eighteen months or two years, said Mr. Oliver, and the contract will be placed with one or more Canadian companies. Alberta coal from the Greenhill, McGillivray and International mines has been used for some time, he added, and has proven very satisfactory.

Only bituminous coal can be used since the fuel is all pulverized before use, and anthracite coals prove too hard for the crushing machinery. Requirements during the winter months run from 150 to 175 tons a day.

Following meetings with coal men Tuesday afternoon and Wednesday, Mr. Oliver will visit the Crow's Nest mining field and later those in the Edmonton and other northern districts.

Specifications for the requirements of the Winnipeg Hydro Electric will be issued after his report is made in Winnipeg early in August.

Mr. and Mrs. J. M. Sweeney passed through Blairmore last evening by motor, enroute to the Pacific coast, where they will spend a few weeks of their vacation. Upon their return, they will take up residence at Vermilion, where Mr. Sweeney has accepted position as principal.

WEEK-END FARES TO BE

CONTINUED BY RAILWAYS

Reduced week-end fares, good on all trains and between all stations in Canada, introduced this year by the Canadian railways as an experimental measure, will be continued in effect until October 31st. Under this arrangement, return tickets are issued at the rate of one and a quarter times the ordinary one way fare, the going portion good on all trains leaving after noon Friday and returning on all trains leaving up to midnight on the following Monday. The provisions of these reduced fares has improved the facilities for week-end travel. In all parts of the Dominion and has provided cheaper week-end outings between city and country areas and vice versa.

The reduced fares were first placed in effect during May, June and July, with a view of stimulating week-end travel and making these journeys between points in Canada easier and more economical.

WORK ON ALBERTA END OF THE TRANS-CANADA HIGHWAY TO START

EDMONTON, July 20.—Construction work of the Alberta section of the proposed Trans-Canada highway will begin shortly—meaning, it is now expected, a matter of only a couple of weeks or thereabouts. The Dominion government has advised the provincial government that it will share equally with it on the cost, and the only point that still remains to be settled is the route.

Three possible routes as Alberta links in the highway have been suggested, in answer to a request from the prime minister, as follows:

Jasper, Edmonton and Lloydminster; Jasper, Edmonton and Wainwright; and Banff, Calgary and Medicine Hat. When a choice between these is made by the Dominion authorities lining up with the routes across the adjoining provinces, the way will be clear to begin actual operations.

AMERICAN COAL OPERATORS OPPOSE NATIONAL PARLEY

WASHINGTON, July 16.—With the price of soft coal so low that a ton at pit mouth is worth no more than a small box of chocolates, with mine wages at new low levels, and a majority of mine operators admitted by losing money, the group of bituminous coal men who conferred here with Secretary of Commerce Robert P. Lamont and Secretary of Labor W. N. Doak on the troubles of the industry, concluded little could be done at present to ease conditions by a general conference. Individual operators made it clear that they oppose a national coal parley proposed by John L. Lewis, head of the United Mine Workers of America.

The feeling of the coal operators was not unforeseen. It is pointed out that seventy per cent of coal mining costs represent labor expenses and any national conference would inevitably bring up the question of higher wages, which owners feel they could not grant at the present time. In the meantime, one third of the nation's mines are said to have been closed and an army of more than 200,000 men forced out of jobs to the accompaniment of violent strikes.

The depressed state of the whole coal industry has caused violent splits in the once powerful U. M. W. of A., as evidenced by representation at the National Miners' Union parley, a communist group, which has strikes said to involve 27,000 miners in areas formerly held by the U. M. W.

FOR SALE—Four-room House, with bathroom; water free, piped in from spring. Also two lots, with two-room shack, woodshed, stable, chicken house. Price \$450. Apply to P. O. Box 45 or The Enterprise.

WORLD HAPPENINGS BRIEFLY TOLD

Eight Russian army officers were killed in an airplane accident near Alabino, 30 miles west of Moscow.

Edmonton land sales for the first quarter this year amounted to \$15,000 more than for the same period last year.

In Parliament Prime Minister Bennett said he did not expect to hold the position of Finance Minister at the next session.

Air mail contracts of which expiry notices on July 15 were issued by the post office department several weeks ago, have been extended until August 15.

Charles A. Lindbergh has been granted permission by the radio commission to operate a transmitter aboard his airplane on his projected flight to Japan.

Jute factories in Dundee, Scotland, are at work making a million sugar sacks. The sacks have been ordered by the government and are to be completed by December.

Organization of self-contained labor camps in the north of Canada was proposed in a resolution passed at Hamilton by the central branch of the Canadian Legion.

Announcement is made of the appointment of Lieut.-Gen. Arthur G. Wauchop to be high commissioner in Palestine, succeeding Sir John Chancellor, who recently resigned.

Appointment of H. E. Beresford as assistant director of surveys for Manitoba and Alfred Bedford Howell as chief game guardian have been officially announced by orders-in-council of the provincial government of Manitoba.

Strange News From Holy Land

32,000 Horse-Power Plant To Supply Electrical Energy In Biblical Towns
Here is strange news from the Holy Land. The first hydro-electric plant on the River Jordan south of the Sea of Galilee will soon be in operation. It was built partly by American capital and by next year its 32,000 horsepower plant will be supplying current to such Biblical towns as Jaffa, Haifa, Nazareth and Beersheba. Meanwhile the British are building a generating plant that will supply Jerusalem, Bethlehem and the surrounding region. Before long the mountain streams of Lebanon will be producing 31,000-horsepower.—World's Work.

Barley In Canada

Barley is the hardiest of all cereals and can be grown through a greater range of climate than any other. Its production dates from the most ancient times when it was used principally as an article of food, but as the years progressed the uses became varied. The production of barley ranks third among the cereal crops of the Dominion in acreage and total yield and second in average yield per acre.

Preserving Our Scenic Wealth

To preserve some share of the wild places of the land in their primeval condition is the object of the National Parks of Canada.

SUNDAY SCHOOL LESSON

JULY 26

CHRISTIANITY SPREAD BY PERSECUTION

Golden Text: "Be thou faithful unto death, and I will give thee the crown of life."—Revelation 2:10.
Lesson: Acts 7:54 to 8:4; 11:19-21; 26:9-11; 1 Peter 4:12-19.
Devotional Reading: 1 Peter 1:3-9.

Explanations and Comments

The first Christian martyr, 7:54-60. 8:2.—How challenging is the fortitude and grace of Stephen! In the strength of his vision of the heavens opened and of the Son of Man standing on the right hand of God, he could meet hatred and even death with a serene and courageous spirit. How his quiet demeanor contrasts with the ruthlessness and hatred of the mob, who grind their teeth in fury, scream, rush upon him, drag him through the city walls, and stone him.

When the stoning began, Stephen knelt to pray for power faithfully to endure to the end. It may be as the stones hurled upon him he was thrown to his knees and was in this position as the stones came thick and fast, like his Master he prayed for those who stoned him. "Lord, lay not this sin to their charge," he cried; do not weigh place not this sin in Thy balance against them. At once we think of Christ's prayer from the cross, "Father, forgive them, for they know not what they do."

"In our lives we need Stephen's steadfast courage, and his clear-eyed faith, and his heaven-piercing hope, and his God-like charity."

And when he had said this, he died, as it is beautifully expressed here, "he fell asleep." And devout men buried him, and made great lamentation over him, beating their breasts as a sign of their grief. It took courage to perform this kindly act for Stephen, even if most of the mob had departed to wreak their vengeance on the church in Jerusalem.

Paul's Part In Stephen's Death. Acts 8:1.—When witnesses to the death of Stephen had seen the stoning flowing robes in order to have free liberty of action, they left them in the care of a young man named Saul. He is first called Paul in Acts 13:9. And Saul was consenting unto his death, approving all this. Saul, in Acts 22:20, Paul himself says, "And when the blood of Stephen, Thy witness, was shed, I also was standing by and consenting."

Persecution Begins and the Disciples Are Driven Beyond Jerusalem, Acts 8:1, 2.—Not content with Stephen's death, the mob began a city-wide persecution of the church. They were in Jerusalem, and they were all scattered abroad throughout the regions of Judea and Samaria. Saul, six years had elapsed since Jesus commissioned His disciples to go and teach all nations, yet the church was still in Jerusalem, and not a single church had been invited into the world.

Paul's Share In the Persecution. Acts 8:3.—"Conquering" to mean by which others stoned Stephen, presently, when the attempt to destroy the church became a policy to be systematically carried out, Paul enlisted in the task and with fury and zeal entered the arena and dragging from it men and women committed them to prison. The scattered Christians "Preach Everywhere," Acts 8:4.—The attempt to extinguish a great fire by kicking the embers apart resulted in a fire blazing up where each ember fell. Hitherto the apostles had done the preaching. At the time of the appointment of the seven deacons, the apostles had declared "we will give ourselves continually to the ministry of the word." But all believers scattered by persecution went everywhere preaching the word. They probably did not declare the truth at first in any set form. Simpson says, they went "quipping the gospel." As they sought shelter in the villages and towns, in explaining why they were there, they would tell the story of the gospel. This brought to the surface latent talent and those gifted began more formal preaching. In this way, the preaching of the truth ceased to be exclusively an apostolic function.

Passing Of Trader Moberley

Was Link With The Very Early History Of The West

H. J. Moberley, better known as "Trader Moberley," is dead. Apparently in good health, Mr. Moberley was walking about a few days ago. The end came after a very brief illness, death being attributed to old age, Mr. Moberley being 86 years of age at the time of his death.

Known internationally for his book, "When Fur Was King," Mr. Moberley is believed to have been the only remaining commissioned officer of the old Hudson's Bay Company. He served the company from 1854, when he came west with Sir George Simpson, then governor of the company, till his retirement in 1894, when he was factor at Ile a la Croix Post.

Born in Barrie, Ontario, Mr. Moberley was the son of a noted captain in the British navy. His father joined the Hudson's Bay Company, Mr. Moberley was employed by the famous British firm of Lloyds and in their service he visited Havana, Cuba, and St. Petersburg, Russia.

He commenced his service with the Hudson's Bay Company as clerk at Norway House under Chief Factor Rowland. Edmonton was his first post and afterwards he was moved to Rocky Mountain Post, later opening Jasper House as a trading post for his company.

He also at one time was in charge of the posts at Fort Vermilion and Peace River, and established the Fort McMurray post in the early 70's. He was in charge of transports at Fort Macleod and carried despatches ahead of the Earl of Southesk in 1859 when the earl engaged in a hunting trip through Canada. Prior to taking charge of the Ile a la Croix Post, the veteran trader was stationed at Stanley Mission on the Churchill in northern Saskatchewan.

Houses Good Sized City

Thousands Work Or Live In Empire State Building, New York

One of the biggest houses in the evergrowing world is the Empire State Building of New York. It is a huge structure of steel and bricks and is 86 storeys high. About 25,000 people live or work in it. There are 58 passenger lifts for the 86 storeys and three kinds of express lifts. One of these lifts runs at a speed of 15 miles an hour. The passenger goes up to an express stopping floor to his and then transfers to a slow lift which stops at every floor. Here again, however, he can make the last part of his journey on an escalator, of which there are nearly a hundred. Six lifts entirely for goods are always in busy use.

Use "Plane To Locate Minerals

The aeroplane will be employed by Professor J. B. Mawdsley of the University of Saskatchewan in locating and charting mineral resources in Northern Saskatchewan. Investigation of areas of schist and greenstone presenting favourable prospects for metallic minerals will be made.

In catfish families, the father fish assumes the care of the young.

Recipes For This Week

(By Betty Barclay)

LEMON EGG-NOG

(Serves 1)

- 6 tablespoons milk.
- 1/4 cup cold water.
- 1 egg.
- 2 tablespoons sugar.
- 2 tablespoons lemon juice.
- Grated nutmeg.

Combine milk, water, egg and sugar. Beat thoroughly, pour in lemon juice and mix vigorously. Serve in a large glass topped with a grating of nutmeg.

HONGKONG CHICKEN

- 2 cups cold cooked chicken, diced.
- 1/4 cup celery, diced.
- 2 onions, sliced.
- 1/4 cup crushed pineapple, drained.
- 1 teaspoon sugar.
- Salt and pepper.
- 1 tablespoon butter.

Brown the celery and onions in the butter. Add the other ingredients. Heat well. Serve with fried noodles.

Manitoba Gold

Province Likely To Replace Yukon As Fourth Producer In Canada

Gold production in Manitoba for the first four months of the year exceeded the total output for 1930 by a substantial amount, and at the present rate of production the province is likely to replace the Yukon as the fourth producer in all Canada. Manitoba's gold output for the first four months of 1931 amounted to 35,928 ounces valued at \$739,540, or at a rate well in excess of two million dollars annually, as compared with an output of 23,189 ounces valued at \$479,359 for the whole of 1930.

More than \$8,000 was collected in one day recently in Edinburgh for the Scottish lifeboat fund.

Funds For Alberta

Settlement Of School Lands Once In Satisfactory To Province

Close to ten million dollars in provincial assets, with nearly a half million a year in interest for three years, will be coming to Alberta as a result of the settlement of the school lands funds case. Hon. R. G. Reid, provincial treasurer, has been advised from Ottawa that the Dominion Government has issued a three-year debenture for \$9,564,568, bearing interest at 5 per cent until July 1, 1934, payable half-yearly.

The debentures thus issued to Alberta's credit represents accumulated principal moneys from the sale of school lands since the organization of the province in 1905. All funds from this source have heretofore been handled by the Dominion, which has retained the principal and paid interest to the province. With the transfer of the Natural Resources from Dominion to Provincial control the school lands funds now pass to the province as part of the public domain.

Negotiations leading up to this settlement have been under way for a considerable time past. The conclusion now reached is regarded as highly advantageous to the province, and both Premier Brownlee and Treasurer Reid express themselves as well pleased with the outcome.

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Communicating With Planets

Nicola Tesla Discovers Means Of Transmitting Energy From One Planet To Another

Nicola Tesla, the inventor, in an interview on his 75th birthday, said after years of research he had discovered a means of transmitting thousands of horsepower of energy from one planet to another, which he believes will open the way for interplanetary communication.

"I feel," he said, "that we are nearing a period when the human mind will perform greater wonders than ever before. This is due to the continuous refinement of means and methods of observations and the ever increasing delicacy of perception."

Scotland's Population Is Less

Preliminary census returns for Scotland show a fall from 4,882,000 in 1921 to 4,842,000 now. This is the first time a decrease in Scotland's population has been officially recorded, and migration is given as the reason. Gaelic speakers number 137,000 of which 7,000 cannot speak English.

"Keep hold of the cord of laughter's bell,
And avoid the tones that jar;
The sound of a sigh doesn't carry well,
But the lilt of a laugh rings far."

Blame Rests On People

Present Depression Has Been Caused By Human Errors

No greater mistake can be made than to imagine that the world's depression was produced by mechanical forces too mysterious to be explained. A combination of many causes, active over a long period, culminated in the depression, but they are all identifiable as human errors, in which governments and peoples have persisted, in spite of warnings of inevitable consequences. Recovery will not be achieved by resting in the security of dogmatic theories, but by repairing the mistakes in public and private conduct by which the world has again been plunged into misfortunes exactly similar to the bitter experiences of successive generations in the past.

A portable X-ray has been designed to enable a physician to learn at once the extent of a patient's injuries who has been hurt in an accident. The machine is carried to the scene, in the ambulance.

FUTURE CATTLE MARKET
IN THE WEST BRIGHT

An increasing export trade in livestock, is seen by W. J. McGougan, president of the Winnipeg Livestock Exchange, who, with nine directors of the exchange, have returned from a tour of the west over the Canadian National for the purpose of making a survey of conditions.

Overseas shipments, according to McGougan, have noted remarkably good prices, so much so that winter-fed beef cattle are practically sold out. Cattle sales on the Winnipeg market have this year shown a 25 per cent increase over the same period of 1930. The hog market has been exceptionally good and the sheep and lamb market has held up well.

Included in the party was Charles Maybee, president of the Canadian National Livestock Exchange, who was elected honorary vice-president of the American Livestock Exchange, at St. Paul, marking the third time in 43 years that this honor has been conferred on a Canadian.

WHAT A FARMER IS

A farmer is described in the Dairy Farmer, New Zealand, as follows:

A capitalist who labors.

A man who works eight hours a day, twice a day.

A man who has every element of nature to combat every day of the year.

A man who is a biologist, an economist, and a lot more lists.

Who gives more and asks less than any other human being.

Who sells his produce for what the other fellows care to pay for them, and who buys the other fellows' produce at what the other fellows care to charge for them.

Who sells his produce for what the other fellows care to pay for them, and who buys the other fellows' produce at what the other fellows care to charge for them.

Who sells his produce for what the other fellows care to pay for them, and who buys the other fellows' produce at what the other fellows care to charge for them.

Who sells his produce for what the other fellows care to pay for them, and who buys the other fellows' produce at what the other fellows care to charge for them.

Who sells his produce for what the other fellows care to pay for them, and who buys the other fellows' produce at what the other fellows care to charge for them.

Who sells his produce for what the other fellows care to pay for them, and who buys the other fellows' produce at what the other fellows care to charge for them.

Who sells his produce for what the other fellows care to pay for them, and who buys the other fellows' produce at what the other fellows care to charge for them.

And Lugosi's determination is in itself a great tribute to his ability as an actor. He has been able to act the part mechanically—had not thrown himself heart and soul into the role—it would not have the terror that it now has. But a great artist does not play mechanically, and Lugosi is a great artist. Thus, each night in the theatre and for many days at the picture studios, his nervous system has been subjected to a terrible strain.

"Dracula" brought him fame and fortune, but Lugosi wants more than anything else, to escape from Count Dracula. It is well, however, that he did not reach this decision before the making of the picture—well for the millions of fans who will be fascinated by his great work on the screen. Remember—Cole's Theatre, Bellevue, Thursday, Friday and Saturday, July 23, 24 and 25.

CORBIN HAPPENINGS

Mr. and Mrs. N. Emmerson and family motored to Waterton Lakes for the week end.

Mr. and Mrs. C. R. Shaw had as their guests over the week end Mr. and Mrs. N. Marm Shaw and family, of Calgary, Alberta.

Mr. and Mrs. R. Herd and family are at present visiting with Mr. and Mrs. Sanderson.

Mrs. L. J. Elliott and Mrs. A. C. Jeppard, accompanied by Misses Betty Elliott and Fay Sheppard, and Master Dean Sheppard, were Calgary visitors during the past week.

Mrs. A. F. Ford had as her guest on Tuesday Mrs. J. McDonald, of Fernie.

Miss Doris Puckey of Fernie, was the guest of her sister, Mrs. Percy Elms, for a few days this week.

Mrs. D. McVannell arrived in town on Wednesday, to be with her husband while he is acting as temporary manager of the Flathead Trading Co.

Mr. and Mrs. J. Thompson arrived home on Tuesday and are taking up residence at the Wye.

Mr. and Mrs. H. Jorgenson and son Harry, accompanied by Mrs. W. Rowan and Master Billy Rowan, motored to Calgary over the week end.

Mrs. J. Stevenson had her sister, Miss Turner, of Hillcrest, as a visitor this week.

J. Hamilton is erecting a garage to house his new car.

J. Venables, of the office staff of the Corbin Collieries, is spending his holidays in Edmonton.

Mr. and Mrs. D. Waddington and family left by motor for Calgary on Sunday, where they will spend a brief holiday.

The annual school meeting was held on Saturday evening in the school house. Accounts for the past year were read by the secretary and approved. Appropriations for the coming year were considered. New features for the advancement of the school were discussed, both along sport and educational lines. All reports for the year were very satisfactory. The trustees for the coming year are the same as last year.

At the local school children's track meet, held on Friday last, Mary Kolinski emerged victorious with a total of eight points. A close second was Evelyn McGruther, with seven and a half points, while Marie Almond finished third. Miss Kolinski was awarded the cup, which was donated by Mr. Austin Corbin, to be presented to the best all round athlete in the Corbin school.

The Corbin football team travelled to Coal Creek on Saturday last, where the fans were treated to one of the most closely contested games of the season, the game ending in a one-one draw. The teams were as follows: Coal Creek—D. Chester, E. Atkinson, J. Milburn, D. McNay, J. Brown, G. McNay, F. Johnson, L. Atkinson, F. Townsley, G. Simpson, R. Ferguson, Corbin—F. Dawson, G. Oakley, R. Jackson, Peter, B. McDonald, W. Corlett, J. Ball, F. Queen, Fleming, W. Elms, C. Hibbert.

The Corbin eleven forced Coleman football team to take the short end of a 4-3 score. A crowd of over a hun-

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, July 26th, the pastor in charge.

11 a.m.—SENIOR SCHOOL and PUBLIC WORSHIP. Subject: "The Christian Standard of Success." This is the last talk of the series of discussion on the "Problems of Youth." No evening service during July and August.

ST. LUKE'S, BLAIRMORE
A. S. Partington, Vicar

Sunday, July 26th—Evening at 7 p.m.

Church Army will hold services from July 27th to 29th.

BROWBEATEN HUSBANDS GET LAUGHS IN "STEPPING OUT"

"Stepping Out," Metro-Goldwyn-Mayer's imitation of the Broadway stage hit, will create joy unconfined at Cole's Theatre on Monday, Tuesday and Wednesday next, with Charlotte Greenwood and other prominent stars at the head of a battery of mirth makers whose antics rock the rafters. It's a lifting romance of Hollywood and Agua Caliente, with follies and troubles, jealousy and gold diggers, angry wives and errand husbands, all woven into an amazing structure of mirth.

Miss Bond is an attractive newcomer to the screen and gives an effective portrayal of the same role she did on the stage as Cleo the woman. Merna Kennedy also scores as her companion in luring the innocent millionaires from more or less tranquil domestic life.

Cliff Edwards is a riot as the college boy who gets enmeshed in the plot of jealousy and misunderstanding, and Richard Turner is the suave lawyer who eventually straightens it all out.

Hollywood and its famous swimming pools; Caliente and its tinseled pleasures, form a spectacular and colorful background for hilarious story of errand husbands and jealous wives.

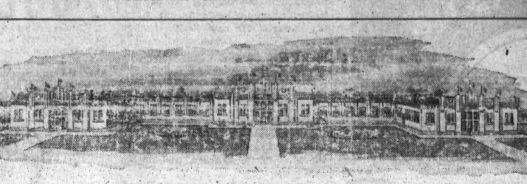

Twenty-two to ten was the manner in which Blairmore defeated the touring Picture Butte baseball team here on Monday evening. The game lasted well over two hours. Last evening the Drumheller All-Stars proved too good for the locals, winning by a comfortable margin. The games were ably handled by Umpire Albert Olsen.

Hon. Robert Rogers, Conservative member for South Winnipeg, has stated that completion of the trans-Canada highway will be one of the unemployment measures to be undertaken by the Dominion government. The stretch of road to be undertaken first will be that linking Winnipeg with the east, to be started very shortly.

Mr. and Mrs. W. Stevenson and party returned to Hillcrest last week from a most pleasant outing at the North Fork, where they enjoyed beautiful weather and fair fishing.

Three fans turned out to witness the home team turn in one of their best performances of the season. Coleman players, although defeated, were by no means discouraged, and forced the play towards the end well into their opponents' territory. The game was noted for its sportsmanlike play, and we look forward to seeing Coleman visiting us again. The Coleman team comprised the visiting teams: Duffield, Ballock, Horst, Griffiths, Lloyd, Borrell, Parks, Hart, Anderson, Horst and Davidson.

NOTED EXHIBITION SPECIALIST TAKES CHARGE OF WORLD'S GRAIN SHOW BUILDING

World's Grain Exhibition and Conference Building

J. O. Turcotte, Canadian Exhibition Commissioner, arrived in Regina for the purpose of conferring with members of the executive and exhibition committee of the World's Grain Exhibition and Conference to be held at Regina in 1932. Mr. Turcotte will have charge of the interior decoration of the building specially erected to house the 1932 exhibition and conference.

Recently, Mr. Turcotte returned to Canada from the British Trade Exposition at Buenos Aires, Argentina, where he had complete charge of the Canadian Pavilion. He is expected to remain in Regina for a few days in conference with various officials of the World's Grain Exhibition and Conference.

Mr. Turcotte, who is a French-Canadian by birth and a Paris-trained architect, was appointed Canadian Exhibition Commissioner in 1925. For some years prior he had been assistant exhibition commissioner. He was responsible, almost in its entirety, for the Canadian pavilion at the British Empire Exhibition, Wembley, England, 1924-25, and for the Canadian pavilion at the Antwerp Exposition in 1930, the Canadian exhibit at the World's Poultry Congress at the Crystal Palace, London, England, in 1927, the Canadian pavilion at the Paris Exposition the same year and the Canadian pavilion at the British Trade Exposition at Buenos Aires last March.

On two occasions Mr. Turcotte has been specially honored. At the opening of the Wembley Exhibition, attended by over 110,000 people, he was one of five presented, by command, to His Majesty the King, and at Antwerp he was also presented to the King of the Belgians, receiving congratulations on both occasions for the excellence of his work.

Mr. Turcotte personally prepares the plans and specifications of the buildings in which Canadian exhibitions are housed. He supervises the construction, designs, educational and commercial exhibits, and is also responsible for the entire color schemes and decorative features.

Mr. Turcotte is the originator of the style of decoration work in Regia, samples of which have already been displayed at Regina in the form of the crest of the World's Grain Exhibition and Conference.

When his services for the decorative work of the World's Grain Exhibition and Conference building at Regina were made available to the organization by the Canadian Department of Trade and Commerce he saw the opportunity to develop the aged style of interior decoration as being particularly appropriate for the first exclusive world's grain exhibition and conference in history.

This style of interior decoration came as a result of Mr. Turcotte's hobby of mosaic work. If color schemes could be worked out in small pieces of marble, he argued, similar schemes could be evolved from natural Canadian products and for the interior decorative

J. O. TURCOTTE

work of the World's Grain Exhibition and Conference he has chosen seeds of various kinds which will permit him to work out the most elaborate decorative features.

Those who have been associated with Mr. Turcotte at former world exhibitions state that he has built up a reputation of never being late. All Canadian pavilions of which he has had charge at exhibitions in different parts of the world have been ready for the public by opening day. He created a noteworthy record at Wembley in 1924 when the Canadian Pavilion was the only one of the hundreds of structures actually complete in all detail at the hour set for opening.

Mr. Turcotte also established another record in connection with the Buenos Aires Exposition. The Canadian Pavilion was actually built in London, England, and consisted of a wooden building about 30 feet high, 100 yards long and 100 yards wide, made in 35,000 pieces. The pieces were numbered, packed into thousands of cases, the whole weighing about 1,300 tons. They were shipped to Buenos Aires and upon his arrival Mr. Turcotte laid out the work set the building up, planned and erected the decorative features and had the pavilion ready for the public nearly two weeks before the official date of opening. English newspapers, in commenting upon this remarkable feat, described the building at the time of packing, as the world's greatest jigsaw puzzle.

The above picture lay-out shows the magnificent new building erected on the exhibition grounds at Regina to house the World's Grain Exhibition and Conference in 1932.

The cost of the building and decorations is approximately \$250,000. It has an area of 150,000 square feet with an exhibit frontage in excess of one and one-half miles. The building is practically ready to hand over to the National Committee of the World's Grain Exhibition and Conference who, in turn, will place it at the disposal of Mr. Turcotte (below) for the purpose of interior decoration.

Mr. and Mrs. C. J. Tompkins were visitors to Calgary, returning during the week.

The railways are prepared to build spur lines to any place within a radius of three miles from the main line to accommodate farmers whose potato crop would run to 150,000 bushels. Therefore, we feel that the application of the Blue Grouse and T. Bone ranches will hardly be entertained by the board of railway commissioners. The manager of the Blue Grouse states that he planted eight sacks of seed potatoes this season, and with the dry weather prevailing, weight, held Jack Sharkey, 200 lb. it is hardly likely the crop will reach sixteen rounds last night.

WANTED — Second-hand Baby Buggy. Apply at The Enterprise.

The Drumheller All-Stars will play the Bellevue baseball team this evening and at Coleman tomorrow evening.

George Passmore was the chair guest of Dr. R. K. Lillie, dentist, last evening.

"Ma" Kennedy, mother of Almee Semple McPherson, has just discovered that her husband has been well married to another woman.

Mickey Walker, 170-pound middleweight, held Jack Sharkey, 200 pounds, to a no-decision draw in fifteen rounds last night.

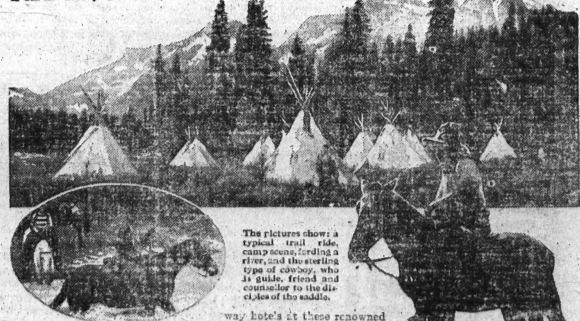

The death occurred at Muscatien, Iowa, on Tuesday morning of Mrs. M. Cressman, of Stavelay.

One hundred and twelve degrees in the sun and ninety in the shade in Blairmore on Monday came near qualifying everybody for a better hereafter.

HITTING A WOMAN
NOT SO SERIOUS

For hitting a man at Coleman, Magistrate Gresham sentenced the accused to thirty days in jail; and for hitting a woman at Skiff, Magistrate Sargent sent a man to jail for fourteen days.

RIDING IN THE CLOUDS

The pictures show a typical trail ride, camp scenes, riding a river and the setting type of cowboy, who is guide, friend and counselor to the disciples of the saddle.

Up, out and away from the cars and limitations of modern life, sharing the joys of long days in the saddle in flower-studded Alplands and stately paces with a good company of kindred spirits; happy evenings round the campfires and peaceful, health-giving nights in the wine-like atmosphere of the mountains; such is the life of the Trail Riders of the Canadian Rockies on their annual expeditions from Banff and Lake Louise, which have long since become famous items in the summer programs of the two great Canadian Pacific Rail-

way lines. In these renowned holiday haunts, carefully planned rides, of varying durations to suit all tastes, experienced guides, cooks and horse-wranglers, a pack train always ahead to welcome the riders at the evening meal, with the night's camp all ready for occupation; horses that are as sure-footed as goats all contribute to making this form of holiday one of the most original and enjoyable on the American continent. Canadian Pacific lines carry enthusiasts and new recruits from the four corners of the earth to Banff and Lake Louise, each summer. This year the official four-day ride will be held from July 30 to August 3, covering 62 miles through Banff National Park, in territory with special appeal to the photographer and fisherman, and will be followed by a 10-day ride of greater mileage.

GUTTA PERCHA TIRES

GUM CUSHIONED

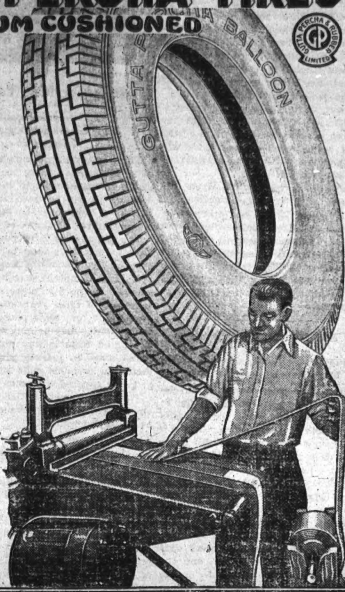

Why 'GP' Tires are shockproof

Examine the illustration above and you will see that the vital parts of Gutta Percha Tires are effectively protected by cushions of live rubber. The location of these Gum Cushions is exactly where undue strains are encountered. This invaluable protective feature is exclusive to "GP" Tires—an added safeguard to uninterrupted service. The constant shocks and strains thrust upon tires are absorbed by the cushions, saving the cords from injury. The longer life of Gutta Percha Tires is definitely due to these marvellous, protective Gum Cushions.

COWLEY HAPPENINGS

Peter Veregin, head of the Doukhobors, who resides at Brilliant, B.C., visited his people here on Sunday.

The I.O.O.F. hall was packed to standing on Sunday evening, when a company of thirty Doukhobors from Veregin, Saskatchewan, in their native tongue dramatized conditions in Russia, leading up to the exodus of their people some thirty years ago to Canada. Looking backward to the period of a hundred years ago, they demonstrated the cruelty of the higher powers over the common people. Owing to religious rites in that day, it was hard for peasants to get married, as they had to pay a certain fee to the priest before the marriage ceremony could be performed. They stressed their horror of wholesale slaughter of mankind in needless wars, showing examples of enforced enlistment of soldiers and their reluctance to take part in bloody frays; their refusing to accept such conditions, taking them to trial and condemning them of disloyalty, casting some into prison, with others of them suffering public floggings, in many instances killing the victims in the act; following up with their beautiful and impressive services over the dead, with singing and prayer. Hence their coming to Canada where they could establish peaceable homes and enjoy religious freedom.

Rev. J. W. Smith, of Blairmore, took charge of divine service in the United church here on Sunday evening, relieving Rev. Mr. Horton, the local minister, who was called to fill an appointment at Fishburn, Man. and Halifax churches.

Mr. Dick, manager of the local branch of the Royal Bank, has returned to take up duties, much refreshed from a holiday trip, camping, fishing, etc. Mr. B. O. Morrow, who acted as relieving manager during his absence, has returned to Lethbridge.

Miss Nancy Gunn, of Lundbreck, spent a few days, the latter part of the week visiting Miss Sylvia Murphy.

Mrs. M. A. Perceval and family, accompanied by Mrs. B. Huthillier, spent Sunday at Waterton Lakes.

A number of local enthusiasts attended the pool meeting at Pincher Creek on Saturday.

Little Miss Irene Wells, of Bellevue, is paying a holiday visit to Mr. and Mrs. Robert Littleton.

Rev. Mr. Horton and Jack Cowan have returned from a trip to Macleod, where they attended the boys' camp for a few days.

Several good catches of fish are reported being taken from the South Fork river during the week.

Rev. Father O'Dea has returned from a holiday trip, extending over several weeks, to Montreal.

Roy Easterbrook and family, of Blackie, paid a visit to Mr. and Mrs. Albert Cleland and family during the week from a few weeks' vacation.

past week.

Burnis won from Cowley in a baseball game played at Burnis, with a score of 4 to 7. The return game on Cowley grounds ended 18-7 for Cowley.

Mrs. Cooper, of Calgary, arrived here on Saturday to pay a visit to her daughter, Miss Aileen, of the telephone office.

The haying season is now on, with some good yields of sweet clover.

HILLCREST HAPPENINGS

J. M. Mackie, of Montreal, is making his usual visit to Hillcrest.

Miss Irene McCarthy, who has been spending her holidays for the past week here, left for her home at Hanna this week.

Mr. and Mrs. Jack Mackie returned from the coast on Sunday.

The C.G.I.T. girls returned from their camp at Waterton Lakes last week.

A very successful shower was held at the home of Mrs. J. Gorton, senior, for Miss Lizzie Welsh. After several hands of cards, a covered wagon, laden with gifts, was brought in by two little girls. A light supper was served, which brought a very enjoyable evening to a close.

The Boy Scouts left on Monday morning to camp at Lee Lane. They were accompanied by their leader, A. Mark.

Mr. and Mrs. Seward Taber and children spent the past week at Fernie. They were guests of Mr. and Mrs. A. Blackie.

The Picture Butte baseball team played at Hillcrest, the score being 9-3 in favor of the visitors.

The Hillcrest football team defeated Bellevue to the tune of 2-1 on Saturday.

Mrs. G. Bamforth left on Saturday for a visit with her son Norman in Saskatchewan.

Mr. and Mrs. H. A. McVicar returned home last week from their visit to eastern Canada.

Miss Margaret Lesson was married to Louis Lesson on Saturday last. They left for their home in Manitoba.

The annual picnic of the Miners' Club was held on Sunday last and was well attended. There were a large number of entries for the different races. Refreshments were served throughout the day.

Mr. and Mrs. Hugh A. McVicar returned to Hillcrest last week from an extended holiday visit to their old haunts in Nova Scotia. The trip throughout was thoroughly enjoyed.

A Scotch lassie, who applied for a job as an artist's model, was told to come again the next day and to bring along a pair of tights. She brought her father and mother.

Sergt. Jones and family will return this week from a few weeks' vacation.

YOU won't believe what we tell you about Pathfinder quality until you actually see the Pathfinder Tread Goodyear for yourself. To look at it you'll know it's a good tire. You'll see thousands of miles of safe traction in its tread. You'll know its sturdy carcass means long wear. You'll realize that its price means value that can't be equalled. Let us show you your size.

FORD TRUCKS ARE ECONOMICAL

One of the reasons why Ford trucks are serving many different businesses, in every part of Canada, is their low first cost and low cost of operation. They are economical to keep in service because of their strength and reliability. Forty different kinds of steel are used in the chassis to provide long life and the capacity for hard work. Bodies are available for the Ford 1½-ton chassis, which meet the requirements of almost every business. Chassis with 131½-inch and 157-inch wheelbase are available. They can be equipped with a factory-built cab, at low cost. There is a choice of 6.6 or 5.1 rear-axle gear-ratios. Dual rear wheels are available at small additional cost. Come in and let us show you many valuable features of Ford trucks.

Where Are We Astray?

Out of the present world depression good will eventually come. This prediction can be made with absolute confidence and certainty of fulfillment because lessons are being learned and the need for reforms being demonstrated which will force action resulting in the application of remedies.

But at the present moment if the question is asked: What reform is most imperative, what action should be first taken, there are almost as many answers as there are people. There is no agreement as to what has caused world conditions; there is even less agreement as to the course of action necessary to reach solutions and to prevent a recurrence of such depressions. Mankind in its world relationships must have violated some of the fundamental laws of Nature to have brought down upon itself such a world calamity, but if so, no one appears to be able to put their finger on the spot and declare authoritatively: "There lies the trouble."

All of which leads to the thought and the question whether our much vaunted systems of education are not very much at fault in the very foundations upon which they are erected. Much thought is expended upon the devising of a curriculum, in the preparation of text books, in the academic training of teachers, and hundreds of millions of dollars are expended in school buildings and equipment of all kinds. This has been going on for generations, yet when a world condition develops such as we are now experiencing, and from which we all suffer, the thinking of the world is confused and muddled. Statesmen, economists, financiers, world leaders in all branches of industry, all are at sea; all running around in circles; none advancing this theory as a solution only to be met by another absolutely contrary theory. No one seems to stand on solid ground, able to advance a clear case or an incontrovertible argument.

What is the basic cause of all this confusion? Is it not to be found in the fact that in our educational methods we have failed to ground our people in a true knowledge and acceptance of the immutable laws of Nature, failed to teach people to think, and to think straight, with the result that the world has been devising and trying out all kinds of artificial man-made devices and experiments, many of them in open defiance of Nature's laws, instead of remaining true to those laws.

Have we not in our educational systems devoted time and energy on many frills; have we not emphasized a narrow, even boastful nationalism; have we not placed a premium on the so-called higher education and the securing of degrees too numerous to mention, but failed to educate men and women to really think, to accurately weigh and rightly gauge the virtues of the world in which we live in the full light and knowledge of those laws of Nature, ignorance and violation of which mean suffering, loss and disaster?

To illustrate: Let any two men meet and begin a discussion of present day conditions, and where does the conversation lead them within a few minutes? They begin by discussing wheat, its price, the marketing of it, whether there is over-production or under-consumption, the effect of Russia's "Five-Year-Plan" on Canada and the world, and at once they are attempting a discussion in political economy. Possibly they start by talking ordinary partisan politics, and at once they are into a discussion of tariffs, Protection versus Free Trade, currency and banking, trade treaties, markets—in a word, political economy. Or taxation is the subject. They are agreed it is excessive, but there agreement ends. One man favors this method of raising necessary revenues; the other has directly opposite views. Again it is political economy. Or possibly they begin a discussion of religious creeds or the racial origins, characteristics, and emigration of people,—and they land in political economy.

But how many understand political economy which is affecting every nation, every home, every life today? What have our schools really taught us about it? Practically speaking, nothing. It is left as a study for the limited few who reach the higher grades, the colleges and universities, and even then it is the odd one who obtains more than a hazy idea of it. Notwithstanding this universal ignorance of even the primary principles of the subject, we are today all talking, or attempting to discuss, political economy. The present depression has made it the current topic of conversation, the language of the street, the office and the home. And what do we know about it? How profoundly ignorant we are, because of this universal ignorance, every quack proposal, every quixotic idea, gets a hearing, and in various quarters acceptance as a cure-all for our troubles.

The question presents itself: Should the study of political economy not be made the most fundamental of all studies for the youth of today, commencing early in the lower grades and continuing through our educational system? Let us study the virtues of life, above all let us teach and train the coming generation along more practical lines, and instead of striving to cram a vast amount of information on certain given subjects into their young minds, ground them in the truth and beauty of Nature and Nature's laws and then train them to think for themselves and apply those laws in every activity of life, individually, nationally, internationally.

Famous Estate For Sale
Glencoe, Lord Strathcona's famous estate in Scotland, is for sale. It covers more than 75 miles, its boundaries stretching 22 miles from Loch Leven to Hannock. Glencoe was the scene of the 1692 massacre of the MacDonalds. The sentinel rock, from which the signal for the massacre was given, is on the property.

Of No Importance
Social Visitor: Of course, closing the saloons has raised your husband's standing in the community.
Mrs. Dooley: Sure, an' it's the other way, mum. In the old days Mike was pointed out by everyone as the village drunk, but now you'd think he was just nobody.

Vegetable oils are said to be a good fuel for some Diesel engines.

Vancouver Wheat Shipments
Wheat exported from Vancouver for the current crop year will exceed 70,000,000 bushels, according to estimates of the Vancouver Merchants' Exchange. For the present crop year to June 11, a total of 65,872,425 bushels were moved, compared with 43,917,181 bushels for the corresponding period a year ago.

Well Fortified
"We are going forty miles an hour. Are you game for another ten?" said a motorist to his companion.
"Yes," she replied, as she swallowed another mouthful of dust, "I'm full of grit!"

Fossil monkeys found in Holland indicate that the climate of that country must have been warmer at one time, in the geologic past.

The Mother of Seven Children Used It for Diarrhoea

Mrs. Ray Drinkwater, R.R. No. 2, Hagersville, Ont., writes: "I am the mother of seven children, and last summer one of them, 17 months old, was taken very sick with diarrhoea, and I thought she was going to die.
"My husband went 7 miles to see what my sister had given her baby, and he came home with a bottle of Fowler's Extract of Wild Cherry. I gave the child a few doses and she was soon well again.
"My other children also had diarrhoea at this time, so I gave them 'Dr. Fowler's' with the same results."

Millions For Relief
309,000 Persons Given Employment Through Public Works
Expenditures throughout Canada on public works arising out of the \$20,000,000 unemployment relief grant made by the Dominion Government in the special session last fall, had reached a total of \$70,550,000 at the end of June. A statement issued by the labor department shows 309,000 persons were given employment with a total of 8,637,000 man-days of work.

By provinces the division of expenditures was: Prince Edward Island, \$200,000; Nova Scotia, \$2,338,000; New Brunswick, \$1,452,000; Quebec, \$10,664,000; Ontario, \$15,505,000; Manitoba, \$2,563,000; Saskatchewan, \$2,900,000; special relief for drought areas in Saskatchewan, \$1,014,000; Alberta, \$2,839,000; British Columbia, \$3,428,000.

In addition the Canadian National Railways carried out work amounting to \$14,113,000, the Canadian Pacific Railway, \$11,514,000 and \$2,465,000 was spent through the grade crossing fund.

Up to the end of June, 88,000 families had been given direct relief. Where returns were made to the department on the basis of persons receiving direct relief the total was in the neighborhood of 300,000.

Expense of the special works undertaken to relieve unemployment was provided one-quarter by the Dominion, one-quarter by the provinces, and the balance by the municipalities.

Peace Motion Tabled

Proposal of Miss Agnes MacPhail Disapproved by Committee

Proposal of Miss Agnes MacPhail, Progressive member for South East Grey, to establish professorships and scholarships in Canadian universities to promote peace was disapproved in a report by the industrial and international relations committee tabled in the House of Commons.

The committee had under consideration a resolution by Miss MacPhail that "In the opinion of this House, for every \$100 spent for war, one dollar should be spent to promote peace by instituting international professorships and scholarships in the leading Canadian universities."

Persian Balm is Irresistible. Fragrant as summer flowers. Cool as a mountain spring. Wonderfully invigorating. Softens and whitens the hands. Makes skin soft-textured and youthful. Used by women as a powder base and as a perfume and beauty complexion. Used by men as an effective hair fixative or shaving lotion. Also used by athletes to soothe and protect their tender skin like the delicately cool Persian Balm.

Willing To Oblige
A Philadelphia man called up a birdstore the other day and said: "Send me 30,000 cockroaches at once."
"What in heaven's name do you want with 30,000 cockroaches?"
"Well," replied the householder, "I am moving today and my lease says I must leave the premises here in exactly the same condition in which I found them."

Plan Visit To Russia
Visas have been granted by the Soviet government to George Edmund Shaw, Lady Nancy Astor, and a party of distinguished Britons who have announced their intention to visit Russia this summer.

A Spaniard introduced tobacco into Spain from the West Indies in 1569.

ABANDON PACIFIC OCEAN FLIGHT

Inability to manage the plane, "Fort Worth," in heavy winds with more than 300 gallons of gasoline, was given by Reg. Robbins (left) and Harold S. Jones, Texas, the reason for abandoning their Seattle-Tokyo flight. The fliers reached Nome, but decided not to continue their 5,100-mile hop to Japan.

Will Erect Seadromes

Trans-Atlantic Air Lines Soon To Be In Operation
The first of eight seadromes, proposed man-made islands to dot the Atlantic at intervals of 350 miles between the United States and Great Britain, will be constructed off the coast of United States next spring.

Grant, project announced recently, predicted that within a year from the placing of the first seadrome the other seven ocean landing fields will be completed and a trans-Atlantic air line in operation.

The seadromes, Captain Grant explained, will have a six-acre deck, which will be 70 feet above the water surface, or 30 feet higher than storm waves. The seadromes will be buoyed by air tanks extending 40 feet below the surface. Ballistic tanks, filled with pig iron and giving the seadromes their stability, will extend 177 feet downward.

Australia's New Stamps

Unique Design Commemorates World Flights of Kingsford-Smith

After some delay Australia has issued the Kingsford-Smith stamps to commemorate his world flights.

The stamps consist of a two pence red, and a three pence blue. There is also a six pence deep mauve, issued for air mail service. Each of the three stamps have the same design, an aeroplane flying between the two hemispheres, with the inscription "Australia" at the top of the stamp, and "Kingsford-Smith's World Flights" at the bottom. The values are in small oval tablets in the lower corner, and the word "postage" at each side. The only difference in the air mail stamp is that instead of the words "postage" on each side, the words "Air Mail Service" are inscribed. When these Commemorative stamps were placed on sale in Melbourne the six penny air mail was bought so heavily that the supply was exhausted within fifteen minutes.

An Unusual Convention

Four Hundred Divers Of Water Attended Meeting In Italy

Four hundred divers, including professors, physicians, priests, workmen and several women attended the first congress of rhabdomyancy—diving of water, precious metals, etc.—at Verona, Italy, recently. In order to test the delegates' capacities, a commission of engineers dug nine holes ten feet deep in the municipal stadium and buried in them metals and pipes containing running water. Armed with rods, willow, or metal, the divers discovered all the spots. Professor Mercati, of the Rome University, declared that he was so sensitive that he was obliged to wear rubber-soled shoes to avoid disturbing sensations when he was walking about.

A Power Of Its Own—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Visas have been granted by the Soviet government to George Edmund Shaw, Lady Nancy Astor, and a party of distinguished Britons who have announced their intention to visit Russia this summer.

MACDONALD'S Fine Cut

Canada's Finest Cigarette Tobacco with ZIG-ZAG papers attached

Penalty For Nude Paraders

Three Years' Imprisonment May Be Imposed Under Proposed Amendment

Three years' imprisonment for parading while nude may be imposed under an amendment to the criminal code which will be introduced in the House of Commons shortly by Hon. Hugh Guthrie, Minister of Justice.

The amendment is proposed with a view to putting a stop to nude parades by Doukhobors of western Canada. It is comprehensive in its character. In the first place it provides a penalty of three years on summary conviction for nude paraders. The same penalty may be imposed on anyone found nude in any public place, found nude on private property not their own, or found nude on their own property exposed to public view.

The term "nude" is defined in the amendment as being so scantily clad as to be indecent.

Utilize Muskeg Vegetation

Edmonton Firm Manufactures Building Insulator Material From Muskeg Litter

Commercial utilization of muskeg vegetation, plentiful enough in Northern Alberta, is seen as an immediate probability following the development of a new building insulator called "Muskeg" by two Edmonton men. An Edmonton lumberman, J. Victor Carlson, and his son Arthur V. Carlson, are stated by the Edmonton Journal to have perfected a process by which ordinary muskeg litter is transformed into fine quality of insulation material. Experimental work is stated to have advanced sufficiently for the new product to be offered to the building trade.

Stimulate Fishing Industry

Hon. D. G. McKenzie, Minister of Mines and Natural Resources in the Province of Manitoba, is personally visiting fishing settlements along Lake Manitoba collecting data concerning the problems with which the men engaged in the fishing industry are faced and to formulate plans for putting the fishing industry on a better basis.

Remove all callouses and enlargements from your stock with Douglas' Egyptian Liniment, a wonderful remedy.

Credit For Unemployed

Pending the commencement of unemployment relief works on a large scale in British Columbia, the provincial government has instructed government agents and provincial police in all outlying districts to give all persons who need food, credit of 40 cents a day at local stores. The allowance will apply to women as well as men.

British Trade With Russia

Export Credit To Be Extended For a Period Of 30 Months

In a move to increase British exports to Soviet Russia, the British Government announced Thursday, July 9, 1931, through William Graham, president of the Board of Trade, that exports credit will be extended for a period of 30 months instead of 24 months as at present.

This arrangement will be limited to heavy engineering products. The British move has resulted from other European countries, notably Italy, having extended their export credit schemes for Russia to 30 months.

The announcement, made in the House of Commons, disposes of reports in the British press in the last few days that the Labor Government planned to extend a new credit of approximately \$30,000,000 to Russia. It was learned authoritatively that British exports credit arrangements for Russia remain unchanged except in relation to the extension of time limit. The 30-month limit includes the period of manufacture.

A Live Stock Safeguard

Restrictions Placed On Importation Of Stock From Countries Infected With Foot and Mouth Disease

With official confirmation of outbreaks of the dread foot and mouth disease in England, Scotland and Ireland, it has become necessary for the Dominion Department of Agriculture to exercise the powers conferred upon it under and by virtue of the Animal Contagious Diseases Act, and cancel all permits issued for the importation of cattle, sheep, goats, and other ruminants, and swine from the countries infected with foot and mouth disease. While shipments actually embarked as on the date of the official order, June 20, 1931, will be allowed to proceed to Canadian ports, the issue of permits has been held up for an indefinite period.

A pleasant medicine for children is Mother's Own Worm Expeller, and it is excellent for driving worms from the system.

New Serum Discovered

Discovery of a new small-pox serum was announced recently by the British Medical Research Council, reporting the researches of Professor William John Tulloch and Dr. James Craigie. The serum enables a definite diagnosis in early stages of suspected smallpox, whereas the symptoms are otherwise doubtful.

PORT FACILITIES AT CHURCHILL READY SEPT. 15

Ottawa, Ont.—The grain dealers of western Canada must take the responsibility for any test movement of grain out of the port of Churchill this autumn, Hon. R. J. Manion, Minister of Railways, stated in the House of Commons. The elevator would be in readiness on September 15 for the test movement.

"There has been discussion in the press of western Canada," he said, "as to the quantity of grain that would be handled in this test movement. I have made careful inquiry of departmental officials, and the records have also been searched, and I am unable to find any statement as to quantity of grain to be moved in connection with the proposed test of terminal facilities.

"I am advised by officials of the department who have been constantly in touch with the matter that, in view of the necessity as far as possible to avoid interference with the dredging and construction program, it was never contemplated that more than two or three cargoes should be attempted in this test movement.

"Pending organization of the port next season, any grain moving for export through Churchill this fall will have certain advantages, as no elevator or storage charges, or charges, or pilotage fees will be exacted. Partly due to this it appears probable, from investigations by the department, that grain may be shipped via Hudson Bay, this season, at a relatively high insurance rate, as cheaply as it can be shipped to Europe through present recognized channels. On this basis, the department has endeavored to interest the western grain trade in the proposed movement, so far without success, due probably to the demoralized state of the grain trade owing to world conditions.

"The government has fulfilled the implied obligation of its predecessors, and will have the terminal facilities at Churchill available on the 15th of September as planned. The railway, the dock, the elevator, and the necessary aids to navigation have been provided.

"Vessels will not proceed to Churchill to load grain unless grain is sold abroad for delivery via that port. The matter is thus in the hands of the grain exporters. It is no part of the business of the government to undertake the purchase and sale of grain for movement via Churchill, any more than for movement via any other Canadian port. If the test movement is to take place, the responsibility is, therefore, on the grain dealers of western Canada.

"The facilities will be available," Dr. Manion concluded, "and, if the grain interests are not in a position to take advantage of the opportunity to give them a practical test after September 15, it will be necessary to postpone the handling of grain through Churchill until the formal completion of work next year."

Riding Freight Trains

Railway Officials Take Action To Put A Stop To Free Trips

Vancouver, B.C.—Frequent deaths among transients getting free trips on freight trains, has been responsible for a drive to end this form of travel, according to railway officials. It is unofficially stated that there have been scores of such deaths in the past few months. Sudden shifting of lumber loads and many other eventualities contribute to the toll among the brake riders.

This week Canadian Pacific Railway police, co-operating with other forces, started a campaign and there have been 20 arrests in various parts of British Columbia for this kind of trespassing.

Another object is to stop indiscriminate movement of unemployed from one part of the country to the other. Railway officials state, too, that many of the travellers are able to pay fare.

Trainmen have been used to an average number of casual tramp seeking free transportation, but the new tide of traffic has swelled to great proportions and has become unwieldy with impediments. In fact, so much baggage has been piled on top of freight cars that brakemen have difficulty, it is said, in making their way along the catwalks.

Government Grain Elevator

The Dominion Government grain elevator, under construction at Lethbridge, is expected to be ready for business by September 1st, this year.

W. H. U. 1999

Government Buying Wheat

To Be Ground Into Flour For Drought Areas in West

Ottawa, Ont.—The Dominion Government has decided to direct the purchase of 2,000,000 bushels of wheat to be ground into 450,000 barrels of flour which will be available at low price, with bran and shorts, in drought areas in western Canada. Premier Bennett announced in the House of Commons.

"It is not improbable," the prime minister stated, "that members, especially those who reside in western Canada, may be interested in knowing that the government has concluded in view of the situation that obtains, to direct the purchase of 2,000,000 bushels of wheat, which will be ground into flour by the mills of the west, thereby enabling the municipalities and those requiring assistance to obtain flour at a very reasonable price and where distribution has to be made will be in a position to do so with economy."

"That will produce 450,000 barrels of flour and the bran and shorts that will remain will also be available if desired. I mention this at once in order that members who may be receiving communication from the west may be able to reassure those who are directly affected by the drought conditions in their provinces."

To Commemorate New Treaty With Australia

B.C. Will Send Giant Douglas Fir Flag Pole To Canberra

Victoria, B.C.—Jubilant at the completion of the new Canadian-Australian preferential trade treaty, Premier Tominie has ordered that this province's gift to Australia of a giant Douglas fir flag-pole be sent to Canberra immediately. Government foresters will search in the woods of this province for a tree of perfect shape and great height and will supervise its cutting and heading. Standing in the grounds of the Australian capital, with a suitable bronze tablet at its base, the pole will commemorate the successful negotiation of the new treaty, which Premier Tominie described as the best business this province has received in years.

Trans-Canada Flight

First Non-Stop Flight From Halifax To Vancouver To Be Attempted In August

Vancouver, B.C.—The first non-stop flight across Canada, from Halifax to Vancouver, will be attempted August 14 by J. Williams, of Ottawa, in a Douglas of a triangle flight, Vancouver, Mexico City and back to Halifax, according to a telegram received by Airport Manager William Templeton. Williams will fly a Lockheed monoplane, capable of a speed of 170 miles per hour. He will leave Halifax at dawn and expects to reach Vancouver about 7 or 8 o'clock in the evening. He will refuel here and take off immediately for Mexico City, hoping to gain from that point for Halifax. He hopes to make the 9,000 mile round trip in three days.

Newspaper Man Honored

J. F. Burd, Of Vancouver Province, Presented With Oil Painting

Vancouver, B.C.—The oil painting of an oil painting of himself was recently made by J. F. Burd, managing director of the Vancouver Daily Province, by executives of the newspaper who had been associated with the Province for 20 years or longer.

Lured to a dinner party on the pretext that the function was to welcome John Russell, business manager, to the 20-year circle, Mr. Burd was surprised to learn that he was the guest of honor.

Presentation of the painting was made by Roy W. Brown, editor. Others present were Ronald Kenyon, managing editor; W. C. Russell, advertising manager; F. E. Henderson, circulation manager; D. A. McGregor, editorial writer, and John W. Wright, production manager.

Advocate Group Insurance

Victoria, B.C.—Group insurance for all civil servants of Canada to be embraced in a national policy, will be placed before the annual all Canada Civil Service Convention at Regina in September, by the Victoria and Vancouver branches. It was made clear at a meeting here of the Victoria local of the Amalgamated Civil Servants of Canada.

Bill Was Defeated

Ottawa, Ont.—A bill to amend the Immigration Act so that no deportation could be carried out of a person who had lived in Canada for 10 years, was defeated last on second reading in the House of Commons when no one rose to address the House.

Hospital Commission

Proposed Network Of Cottage Hospitals and Clinics For Manitoba

Winnipeg, Man.—Establishment of a provincial hospital commission with wide powers and division of the province into hospital zones was held to be essential by a select committee of the Manitoba legislature which met here today. The committee was appointed at the last session of the House to work out a means of "more equitably distributing the cost of illness."

Hospitals are unevenly distributed in this province, the committee decided. Members agreed that a network of cottage hospitals and clinics was necessary to supplement the municipal hospitals. The committee will meet here again in August.

Post Office Deficit

Due To The General Depression Says Postmaster-General

Ottawa, Ont.—The post office deficit was due to the general conditions in the country, Hon. Arthur Sauve, postmaster-general, told the House of Commons when, in committee of supply they considered the estimates of his department. The vote of \$11,492,899 for salaries, etc., was passed. For the fiscal year just closed the deficit of the department would approximate \$2,293,000, being the difference between expenditures of \$36,263,680, and revenues totalling in the neighborhood of \$33,970,680.

PROPOSED PROBE OF QUESTION OF TRANSPORTATION

Ottawa, Ont.—Recommendations for appointment of a commission to consider the whole question of general transportation; present curtailment of projects entailing capital expenditure; salaries of Sir Henry Thornton to be treated as a "public document" and non-publication of the list of other salaries paid officials are recommended in an unanimous report of the special committee of the House of Commons considering the Canadian National Railway's report.

The document further recommends revision of the resolution of former C.N.R. directors for \$30,000 fine annuity to Sir Henry Thornton on termination of services; consideration by directors of the whole question of salaries, allowances, disbursements, pensions and retirement provisions for executive officers. The abandonment of Canadian Government Merchant Marine and the making of arrangements with other shipping companies so that external trade of Canada will not be jeopardized are also proposed.

The report condemns a practice that it declares has grown up under which the National Railways are chargeable with large amounts for payment for social entertainment and other activities of officials on other than official business.

Further recommendations include: Continuation of payments under the Maritime Freight Rates Act; thorough audit by independent auditor of system accounts from time to time; action for elimination of loss on Vancouver-Victoria-Vancouver triangular service; approval of bill to authorize expenditures made and indebtedness incurred during 1931, and approval of measure to authorize the guarantee of securities to be issued under the Canadian National Railway Financial Act, 1931.

Mounties' Monument

Pioneer days in the Canadian West will be re-called on August 1, when notables from all parts of British Columbia and the Prairies gather at Fort Steele, B.C., on the Columbia Valley line of the Canadian Pacific Railway, to attend the formal unveiling of a cairn erected by the Historic Sites and Monuments Board, to commemorate the first Royal North West Mounted Police Fort in British Columbia.

It was built in 1887 by Superintendent "Sam" Steele, (afterwards Major-General Sir Samuel Benfield Steele, K.C.M.G., C.B., M.V.O.), with Inspectors Z. T. Wood and C. F. A. Huot, Surgeon F. H. Powell and the men of "D" Division, and was an important factor in securing and maintaining the peace of the newly developed territory. The history of the Mounties is an epic and their work in connection with the construction of the line of the Canadian Pacific Railway to the Coast, is one of its most stirring pages.

FOR UNEMPLOYMENT RELIEF

Hon. J. A. Merkle, Minister of Railways, Labor and Industries in the Saskatchewan Cabinet, who seeks \$18,000,000 from the Dominion Government to take care of the relief and unemployment in Saskatchewan this year.

Premier Introduces Bill For Pensions

Resolution Provides For Increased Contribution By Federal Government

Ottawa, Ont.—A resolution providing for the increase from 50 to 75 per cent in the federal contribution to old age pensions has been placed on the order paper of the House of Commons by Rt. Hon. R. B. Bennett, Prime Minister. The resolution calls for an amendment to the Old Age Pensions Act. It reads as follows: "Resolved, that it is expedient to amend the Old Age Pensions Act by increasing the amount of the payment to the provinces for old age pensions from one-half to 75 per cent of the net sum paid out during the preceding quarter by such province for pensions, and to provide for the examination and audit of expenditures in the province and the accounts relating thereto."

The increase in federal payment for old age pensions was announced some time ago. This legislation implements that announcement.

Want Potato Probe

Inquiry Into Conditions Under Which B.C. Potatoes Were Marketed On Prairies

Victoria, B.C.—Federal inquiry into conditions under which British Columbia early potatoes were marketed at prairie points, at widely different prices far above the return received by the interior and coast producers was asked by Hon. William Aikman, acting on the complaint of the Vernon Fruit Union and other B.C. growers.

The provincial minister of agriculture wired to Mr. Gornall, chief of markets extension branch of the federal department, citing the "apparent unwarranted spread" between what producers of the province received for their early potatoes, and the wholesale prices as recorded in the bureau's report No. 3, dated July 3, for quotations at many prairie points.

Ore Contains Silver

Edmonton, Alberta.—The mystery ore first discovered by T. G. Donovan, Detroit geophysicist, at Great Bear Lake, contains silver, it has been announced. The sample tested by University of Alberta experts was declared to be of almost unbelievable richness, assaying \$1,035.55 to the ton.

Request For Wheat Board Is Refused

Prairie Premiers Advised Of Decision Reached By Government

Winnipeg, Man.—The Dominion Government has turned down the request of the prairie premiers for a wheat board. Premier John Bracken of Manitoba, disclosed that the premiers had received a letter from Premier R. B. Bennett advising that the Canadian Government does not see its way clear to set up the proposed prairie-wide board.

The letter from Mr. Bennett, Mr. Bracken admitted on questioning, made the suggestion of an inter-provincial body "somewhat similar" to that forecast in reports published here. It had been reported that the Ottawa suggestion was for a commission, headed by John I. McFarland, head of the Pools' Central Selling Agency, to control the Pools' elevator systems and to market their grain.

Pleased With Treaty

Australia Satisfied With Terms Of Recent Trade Pact

Melbourne, Australia.—General satisfaction has been expressed here at the terms of the new Australia-Canadian trade treaty.

It is stated the Canadian concession for Australian wines and citrus fruits will stimulate exports to Canada from this country, and provide a valuable market which will give Australia practically a monopoly in currents and raisins.

"Butter exporters have every reason to be satisfied," said the chairman of the Victorian section of the Australian dairy produce export board.

The S.S. Canadian Constructor leaves for Montreal at the end of August and is expected to take more than 200,000 cases of dried fruits. Every effort is being made to load this ship with a representative Australian cargo.

British Boys Entering Canadian Universities

At Least Twenty-One Are Coming This Year

Montreal, Que.—Practical results of the visit to this country last spring of a group of British public school headmasters is seen in the announcement that at least 21 British public school boys will come to Canada this year to enter Canadian universities.

McGill University will have 12 of the boys, Queen's University, four, University of Toronto, three, and one each will go to Guelph and the University of British Columbia.

F. R. W. Crump, Taunton, will study chemistry at British Columbia.

MANITOBA PLANS TO RELIEVE THE FEED SITUATION

Winnipeg, Man.—Reduction of per cent dues on hay cut on crown lands from \$1 to 25 cents per ton and measures of co-operation with Saskatchewan will form part of Manitoba government's policy regarding the feed situation, making this announcement Premier John Bracken stated the feed situation has shown "decided improvement" during the past three weeks.

The premier said there was "much greater promise" at present for fall pasture and winter feed, "but there is still a shortage in some districts." On crown lands, he said there were 25,000 tons over and above the amount already permitted to resident settlers. As a result of a conference with heads of railway companies, hay will be transported to needy areas at two-thirds of the ordinary freight rate.

The lower rate was secured on the understanding the government would become responsible for the payment of reduced charges. "It is now proposed," Premier Bracken continued, "that the provincial government, in conjunction with the Dominion Government and municipalities, absorb the two-thirds rate, making hay available in drought areas free of transportation costs except as may be charged farmers by municipalities." Premier Bracken explained that this move was purely a relief measure to maintain the livestock industry and he thought it may occur that municipalities in parts of the south-west of Manitoba will not have to bear the expense. As a measure of relief to unemployed in the Carleton Place Valley of Manitoba, the government had decided to put up 1,000 tons of hay at once and invite both Saskatchewan and Dominion governments to contract for their requirements for drought areas of Saskatchewan.

INCOME TAX ACT AMENDMENTS ARE WITHDRAWN

Ottawa, Ont.—The income tax changes announced in the budget were withdrawn by Premier Bennett in the House of Commons. This applies to all except corporation tax.

To a surprised chamber, the prime minister, in grave tones expressive of strong feeling, declared that in view of personal attacks made on him both in the House of Commons and outside, he must ask leave to withdraw the income tax resolutions. Quoting from a speech made on the budget a month ago by Hon. Fernand Rinfret, former secretary of state and member for St. James, Montreal, the prime minister asserted that Mr. Rinfret had charged him with relieving himself and his wealthy friends of 25 per cent. of their income tax.

Another former minister of the crown, Hon. G. M. Gordon, of Peterborough, continued Mr. Bennett, had made the statement at a public gathering that the proposed income tax amendments would save him (Mr. Bennett) \$25,000 personally.

Both statements were untrue, Mr. Bennett declared. He had never been hurt more in his life than by these assertions, one in the House of Commons and one outside, declared Mr. Bennett with some emotion.

Withdrawal of the amendments does not necessarily mean that similar legislation may not be introduced next year as applicable to 1931 income. As a matter of fact, the changes would not have become effective until 1932.

The declaration of the prime minister was received with mixed feelings by the House. If Mr. Bennett believed the legislation proper he should have pressed it regardless of personal considerations, said Hon. W. D. Fuler, former minister of national revenue. Mr. Bennett replied that if it was desirable, the bill could be brought before the House before the day arrived for the payment of the last income tax.

H. E. Spencer (U.F.A., Battle River), expressed the hope that the government would prepare further legislation along the lines of that withdrawn.

Hon. Charles Stewart, former minister of the interior, informed the prime minister that any man in public life was liable to such attacks. Mr. Bennett should not feel too badly.

The tax change withdrawal would have increased the exemptions of the smaller incomes, increased some rates in the middle scale, and decreased the rate on the very high salaries.

Among other things amendments provided that in respect to income for the present year and each year thereafter the rates of tax at present imposed on individuals be repealed and the following substituted therefore:

"On the first \$1,000 or any portion thereof, one per cent."

"On the amount in excess of \$1,000, but not in excess of \$2,000, two per cent."

"And so forth down to: "On the amount in excess of \$24,000, 25 per cent."

The income tax amendments applicable to corporations has already been approved by the House.

Deportation Figures

5,099 Britishers Deported From Canada In Ten Months

Ottawa, Ont.—Deportations from Canada from August 1, 1930, to May 31, 1931, totalled 4,157. Hon. Wesley A. Gordon, Minister of Immigration, told the House of Commons. The House was in committee of supply considering an item of \$1,905,000 for salaries and contingencies of the department. From April 1, 1930, to the present, deportations had amounted to 4,976, the minister said, of which 3,099 were British, 279 United States and the remainder foreigners from countries other than the United States.

The department was not now making grants to immigration societies, the minister said. The vote was divided between \$1,055,000 for salaries for the outside service, and \$850,000 contingencies.

Periscope Hats

Chicago, Ill.—The periscope hat seems to be on its way here. Sponsors of the second International Patent Exposition to be held in Chicago starting September 14, said that among the devices to be shown was a periscope designed to fit a man's hat, enabling him to see a bandit, should he sneak up behind him.

Sweden plans to spend \$12,400,000 on highways and city streets this year.

The Blu-Green Gasoline has arrived in Blairmore

Come and fill your tank and give it a trial. Contains no lead. You will find it the best anti-knock gas you ever used, and as full of power, pep and mileage, and we will sell it at 33 cents per gallon. Why pay more, and probably not get the same results? We still sell Imperial and British-American Gas and Oils, and 100% pure Pennsylvania Oil, known on this side of the border as "Pen-Artic Oil, sold by

Captains Alexander Magger and Wainwright's mill rate for 1931 will be forty-eight mills, for town and school.

Times are tough. Four times this week we have had calls from men so down and out that they begged for fifty cents or a dollar to buy tobacco or cigarettes.

Mr. and Mrs. W. Bond, of Lethbridge, who have been enjoying a three-week motor-camping holiday, passed through Blairmore, homeward bound, on Tuesday. Mr. Bond is connected with the customs staff at Lethbridge.

At the music examinations recently held at Coleman, the pupils of Mr. W. J. Harris obtained a high standard in their respective grades of violin playing. Individual marks were high, averaging 87.2. Several of them were awarded first place out of a large entry at the recent musical festivals held in British Columbia, bringing back gold and silver medals.

At a convention of Orangemen, held at New Westminster, B.C., a resolution was passed asking immediate deportation from Canada of all foreign Communists and that immigration laws be tightened to prevent their entrance into the Dominion in future. The resolution also asked that newspapers, magazines, pamphlets, circulars, etc., published, written or produced, advocating revolutionary communism, be barred from mails.

Mr. and Mrs. Max Mutz, of Vulcan, passed through Blairmore on Tuesday on a motor vacation trip to Kellogg, Idaho.

A ladies' wear shop is advertising a "big alteration sale." Here's the chance for ladies who need big alterations.

Alex. Morency says that all mothers are hard—even Mother Earth. His head came into contact with her a few days ago.

A time clock, similar to that in use in the Calgary arena, will be installed in the Drumbeller arena, the gift of the Imperial Tobacco Company, Ltd.

A number of forest fires are reported in the district between Elko and Cranbrook. A pall of smoke from the west is now covering this district.

People of Labrador are petitioning for representation in the Newfoundland house of assembly. They want a separate district and to elect their own representative.

Tod Creek went down to defeat before the locals here on Sunday evening, the score appearing like 9-6. A return game is being played at Tod Creek this evening.

Sunday last was about the hottest day experienced this season. Many parties journeyed out to the various streams, but most of them stopped at Lee and Crows' Nest Lakes.

A bench warrant has been issued for the arrest of Peter Colrairie, of Newcastle, Alberta, who failed to respond to a summons to answer a charge of keeping liquor for sale. Colrairie is believed to have gone to the United States.

Otis Bartlett, wireless operator who performed such commendable service at the time of the Viking disaster on the northeast coast of Newfoundland, was recently presented with the Scroll of Merit and an address from the Wireless Veteran Operators' Association of New York.

Mrs. B. F. Kiser, of High River, has been elected head of the Catholic Women's League of Western Canada. The C.W.L. recently concluded its annual convention at Charlottetown, Prince Edward Island. Presidents were elected for eastern, central and western Canada, Mrs. Kiser having been honored with the western election.

There's a flaw in the psychology which directs people to read British magazines "because they are so good for you." It reminds one of those youthful Sundays when the small child was set on a stool and made to read "Pilgrims Progress," not because it was interesting, but because it was "good for him." What care I how fair it be, if it be not fair to me.—High River Times.
